

# RoFlow

## TERMS OF SERVICE

---

**Effective Date:** June 15, 2026

**Last Updated:** June 15, 2026

**Agreement Type:** Binding Legal Contract

Welcome to RoFlow. By deploying our integration binaries, hosting configurations, web management dashboards, or system bot assets (collectively referred to as the "Service"), you agree to be bound by these legal Terms of Service ("Terms"). If you find any provision within this document unacceptable, you must immediately halt service configuration and disconnect all RoFlow software extensions from your games, frameworks, and servers.

### 1. Acceptable Use and Platform Compliance

RoFlow grants you a revocable, non-transferable, and non-exclusive right to utilize our group management and security orchestration features inside Roblox environments, provided your operational games strictly obey the law and platform expectations.

#### **CRITICAL: PROHIBITION OF NSFW & ILLEGITIMATE ENVIROMENTS**

**RoFlow strictly prohibits the integration or utilization of its Service within any Not-Safe-For-Work (NSFW) experiences, adult-themed contents, sexually explicit structures, or any environment that violates the Roblox Terms of Service or Community Standards.** Any experience detected deploying RoFlow assets to manage, hide, or support unsafe or rule-breaking content will be subjected to permanent, immediate service termination without prior notice.

### 2. Account Security and User Responsibility

As a service administrator or group manager using RoFlow, you assume full personal accountability for maintaining the confidentiality of your access tokens, configuration keys, and admin controls. You are fully responsible for all occurrences, commands executed, or rank modifications processed via your authorized administrative profiles.

### 3. Platform Enforcement & Assumption of Risk

RoFlow offers automation tooling interacting via external web hooks and structural protocols with the Roblox platform API. While we design all operations to operate safely within general api rate guidelines, users acknowledge the following core risks:

- **Independent Risks:** You acknowledge that configuring and running automation features involving ranks, automated permissions, or script injections involves interaction with a third-party platform. You operate RoFlow at your own sole risk.
- **Account Integrity & Penalties:** If your group, game, or master account is penalized, moderated, warning-flagged, or permanently terminated by Roblox Corporation for any reason—including actions stemming from your custom permission configurations or administrative policies—RoFlow, its developers, and affiliates hold **ZERO LIABILITY**. You accept full accountability for any resulting loss of operational access or virtual assets.

### 4. System Suspension and Termination

We maintain an uninhibited right to suspend, terminate, or completely block individual user accounts, complete Roblox Group IDs, or specific game server permissions from accessing our software services. This corrective enforcement is executed at our sole discretion, primarily caused by, but not limited to:

- Violating any provision of these Terms or the spirit of the RoFlow user community.
- Using API workflows maliciously to induce artificial lag, denial-of-service, or brute-force cracking.
- Falsifying administrative credentials, impersonating RoFlow staff, or deploying cracked, reverse-engineered binaries.

### 5. Disclaimer of Warranties

THE SERVICE IS PROVIDED ON AN "AS IS" AND "AS AVAILABLE" BASIS, WITHOUT WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED. ROFLOW DISCLAIMS ALL WARRANTIES, INCLUDING, BUT NOT LIMITED TO, IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT. WE DO NOT GUARANTEE THAT THE SERVICE WILL BE UNINTERRUPTED, COMPLETELY SECURE, ERROR-FREE, OR APPLICABLE AT ALL TIMES TO CHANGING ROBLOX API UPDATES.

### 6. Limitation of Liability

TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE JURISDICTIONAL LAW, IN NO EVENT SHALL ROFLOW, ITS PROJECT DIRECTORS, CORE DEVELOPERS, OR SYSTEM OPERATORS BE HELD LIABLE FOR ANY INDIRECT, INCIDENTAL, SPECIAL, CONSEQUENTIAL, OR PUNITIVE DAMAGES, INCLUDING WITHOUT LIMITATION, LOSS OF PROFITS, DATA CORRUPTION, LOSS OF USE, OR OTHER INTANGIBLE LOSSES ARISING FROM OR LINKED TO YOUR ACCESS OR INABILITY TO USE THE MANAGEMENT ecosystem.

## 7. Governing Law and Amendments

These Terms are constructed and governed in accordance with the regulatory legal guidelines of the United Kingdom, independent of conflicts of law philosophies. We explicitly retain the authority to reshape, expand, or substitute these structural conditions whenever required. Your continuation as an active deployment node or administrator following published revisions signifies your legal consent to be bound by the updated terms.
